CO 7 Segment A
28th Street to 63rd Street

FALL 2023

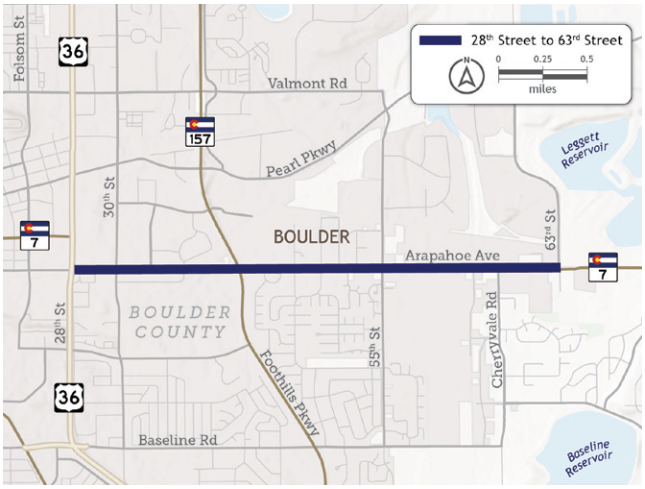
WE WANT TO HEAR FROM YOU!

The Colorado Department of Transportation (CDOT) wants to hear from you! Watch the upcoming online public meeting presentation video for the CO 7 Corridor Segment A Project.

Learn more and provide your insights through the community questionnaire about proposed infrastructure improvements that will enhance transit options, ease congestion, and connect the Northwest Region between Brighton and Boulder.

The CO 7 Corridor Segment A between 28th Street and 63rd Street, commonly known as East Arapahoe, is a six-lane road and one of the City of Boulder's most heavily traveled commuter corridors. This project will provide a safe multimodal transportation system that supports the economy, enhances the environment, and improves the quality of life for both residents and visitors.

This project is currently in the preliminary design phase. As part of this phase, the project team will identify infrastructure costs that help us pursue funding to construct the improvements in the future.



Learn more and provide your input!

When: Anytime at your convenience between October 16-30
