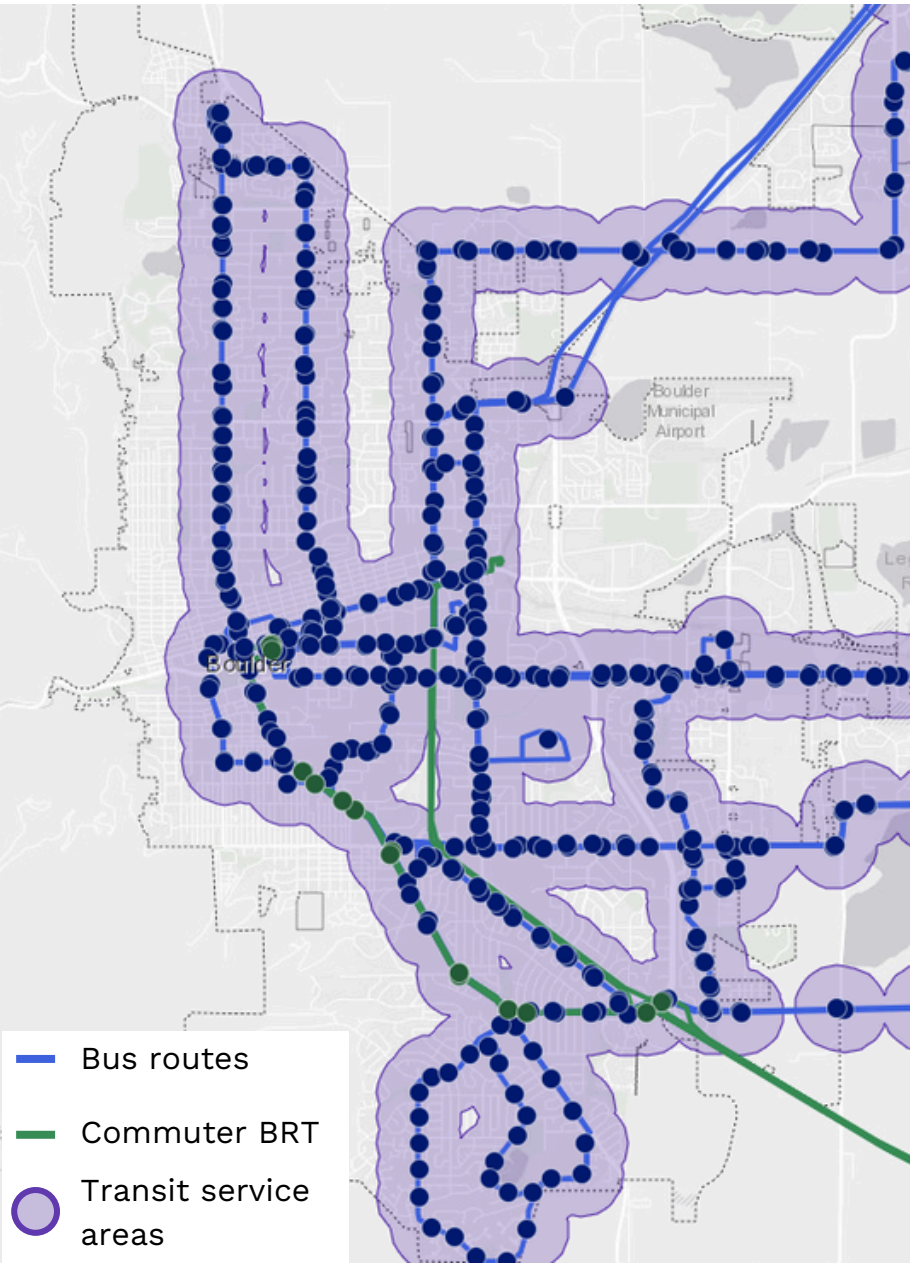
Neighborhood EcoPass Program

A Guide for HOAs, Property Owners & Managers



What is the Neighborhood EcoPass (NECO Pass) program?

The NECO Pass program provides users with unlimited rides on all RTD buses and rail in Boulder, Denver, and beyond.

What is SB25-161?

Senate Bill 25-161 became law in 2025 and focuses on transit reform. It requires specific residential developments to **survey their residents about their interest in having EcoPasses by June 30, 2026**. Our team is conducting outreach to help these developments complete this requirement.

Who does this apply to?

New and existing developments of 50 units or more that are located within transit service areas, shown in purple on the map to the left. See the CO Energy Office HB24-1304 map for more info.

We're here to help!

Our team has created a template survey and an outreach toolkit (in English and Spanish) to help your development comply with this new law. We can also provide additional support, such as tabling and attending community events, to inform your residents about this initiative.
